

BEST PRACTICE STANDARDS IN BEHAVIORAL SUPPORT

In 2021, ODP disseminated [The Best Practice Standards for Behavioral Support](#). We also hosted several Virtual Office Hours (VOHs) for Behavioral Specialists, Administrative Entities (AEs), Supports Coordination Organizations, and Residential Providers. As a follow-up to these efforts, we created a [hub](#) on MyODP that captures all things Behavioral Supports related to the standards. Check it out and visit often as we intend to update and have some additional resources in the works to upload in the future including FAQs and Sample BSPs.

We intend to host additional sessions with providers and AEs to talk about the standards, but in the meantime, we are interested in hearing from those of you who have reviewed the standards or attended a VOH in the past year. Please take a moment to complete this brief [survey](#).

If you have any questions or comments about this communication, feel free to email us ra-bastrainings@pa.gov.
