

Behavioral Health Telehealth Services for Individuals with Intellectual Disabilities or Autism (ID/A) Town Hall

November 7, 2022

6 PM – 8 PM

The Office of Developmental Programs (ODP) and the Office of Mental Health and Substance Abuse Services (OMHSAS) are hosting a Town Hall focused on Behavioral Health Telehealth Services for individuals with Intellectual Disabilities or Autism (ID/A).

The Town Hall will provide an overview of the Telehealth for ID/A project and opportunities for engagement, including details on future stakeholder focus groups. The meeting will also host breakout rooms to gather stakeholder feedback on the benefits and barriers of telehealth for individuals with ID/A.

This is an opportunity for you to assist the Commonwealth by providing feedback on how telehealth works for you or someone you care about and give suggestions for broadening and improving the service for the ID/A population.

We look forward to seeing you at the Town Hall. However, if you cannot make it, maybe you know someone else who can. Please feel free to forward this invitation to other interested parties. **Please register for the meeting using the link below.**
