

Incident Management Representative Survey Link for Adult Autism Waiver Providers

ODP Announcement 22-093

AUDIENCE:

All Adult Autism Waiver Providers

PURPOSE:

The purpose of this announcement is to request that all Adult Autism Waiver (AAW) providers, including Supports Coordination Organizations, complete the Incident Management Representative survey via the QuestionPro link below. The survey link will close on Wednesday August 31, 2022.

DISCUSSION:

When viewing aggregate incident management compliance data related to timely reporting and submission of final sections of incident reports, the AAW performance is not in a range that is acceptable. In order to be most efficient with providing technical assistance to providers and to be able to directly engage with provider Incident Management Representatives (IM Reps), it is critical that we have contact information for the IM Rep in each of the AAW providers.

Please complete the survey at this link by COB Wednesday August 31st.
