

2022 National Core Indicators® (NCI) State of the Workforce Survey Deadline Extended

ODP Announcement 23-049

AUDIENCE:

All Service Providers Employing Direct Service Professionals (DSPs)

PURPOSE:

The purpose of this announcement is to inform all provider agencies employing DSPs that the Human Services Research Institute (HSRI) has extended the deadline for completing the 2022 National Core Indicators® (NCI) State of the Workforce Survey. The portal will now close on **Monday, July 31, 2023**.

DISCUSSION:

A national deadline extension has given eligible provider agencies in Pennsylvania an opportunity to complete the NCI State of the Workforce Survey. If your agency has already completed the survey, no additional action is needed.

To obtain a representative sample, HSRI is aiming for a 5% or lower margin of error for each participating state. The lower the margin of error, the more representative and impactful the data will be. Based on current responses, Pennsylvania has a margin of error of 8.4%. ODP is encouraging providers to complete the survey, which will give stakeholders critical information about workforce metrics.

Thank you to the provider agencies that have already completed the 2022 NCI® State of the Workforce Survey. When HSRI issues the final report, ODP will distribute and upload it to MyODP.org.

To complete the survey, providers have been furnished with a unique login that will enable them to directly enter survey responses into the HSRI database. If the contact information for the person responsible for completing the survey has changed, providers are asked to contact ODP so that the information can be updated and a new login sent for completion.
