Residential Performance-Based Contracting Attestation

Instructions:

All providers of Residential Habilitation, Life Sharing, and/or Supported Living services funded through the Consolidated Waiver and/or Community Living Waiver must complete the below attestation. The provider must complete a separate attestation for each Master Provider Index (MPI) number through which the provider renders Residential Habilitation, Life Sharing, and/or Supported Living services through the Consolidated Waiver or Community Living Waiver. Completed attestation must be uploaded using the Performance-Based Contracting Residential Provider Data Submission Tool by the end of the provider documentation submission period for tier determination.

The purpose of the attestation is to confirm that the provider has met performance standards outlined in bulletin 00-24-01. The attestation, in addition to the documentation submitted by the provider, will help inform the Office of Developmental Programs of the assignment of a performance-based contracting tier for the provider. The provider designee completing this form must have knowledge of all information to which the provider attests. The provider designee should check all applicable boxes for the tier for which the provider has documentation of meeting the criteria or will have documentation by the date outlined in the criteria. If the provider is assigned by ODP to a tier that does not match the tier selected in this attestation, the provider will be required to complete a new attestation for the new applicable tier.

Providers that fail to complete and submit this form by the end of the provider documentation submission period for tier determination cannot be assigned to the select or clinically enhanced tiers and will receive a Directed Corrective Action Plan requiring completion of the attestation to remain in the primary tier. Questions regarding this form should be sent to ra-pwodppbc@pa.gov.
