

The Office of Developmental Programs (ODP)
Heightened Scrutiny Evidentiary Information for Community
Participation Support Service Locations

The following table includes:

- where the CPS program is located (locations that have the presumption of institutional qualities and therefore, the possibility of isolating individuals from the broader community due to the service location's physical location),
- ODP's Heightened Scrutiny determination on whether the service location currently meets, or will meet, waiver and regulatory requirements to overcome the presumption of having institutional qualities,
- the HCBS Rule requirement that was measured,
- regulatory and waiver requirements specific to services funded by ODP used to measure HCBS Rule compliance, and
- the information reviewed by ODP to determine whether the service location currently meets, or will meet, regulatory and waiver requirements to overcome the presumption of having institutional qualities.

CPS service locations that ODP determined have or will overcome the presumption of institutional qualities will be sent to CMS (after public comment) for final review of compliance with the HCBS Rule.

Individuals attend community outings in small groups and also have the opportunity to engage in recreation and socialization throughout their day at the program. The program allows individuals with a

	<p>goal of gaining employment to prepare for employment by acquiring and improving necessary vocational skills if desired. For more information on the program please visit https://www.devereux.org/site/SPageServer/?pagename=penn_services_for_adults</p> <p>This service location's onsite visit confirmed that it is in a building on the same property as an Intermediate Care Facility for individuals with an Intellectual Disability (ICF/ID). The program incorporates individual desires, preferences, and choices into the activities offered, including in the community. While it is located on the same property as the ICF, it does not isolate individuals from the greater community.</p> <p>The Alpha program is situated on the ICF property but is surrounded by residential zones. It is a short drive or walk to many community spaces housing restaurants, grocery and convenience stores, a library, museums, and parks, including a nearby arboretum.</p>
