1

Welcome to the Supports Intensity Scale Adult: An SC Overview. My name is Devon Speelman and I'm the SIS Project Manager for the Office of Developmental Programs.

TOPICS

pennsylvania
DEPARTMENT OF HUMAN SERVICES

- Why is a Needs Assessment Required
- What is the SIS-A & PA Supplement
- Who gets an assessment and how often?
- How is the SIS used in PA
- Your Role as an SC
- What if there is a discrepancy
- Resources and Reminders

8/19/2024

2

By the end of this presentation, you will have general knowledge on why a needs assessment is required. What is the SIS-A and PA supplement? Who gets an assessment and how often? How the SIS is used in Pennsylvania? Your role as a Supports Coordinator. What to do if there is a discrepancy. And some additional resources and reminders.

Why is a Needs Assessment Required?

- CMS requires that any state that provides waiver and Targets Support Management services must have a standardized needs assessment in place to assure that necessary supports and services are consistently and appropriately delivered.
- July 28, 2008 - ODP adopted the Supports Intensity Scale and the PA Supplement as the standardized needs assessment for individuals receiving waiver services ([ODP Bulletin 00-08-11](#))
- March 1, 2022 – ODP extended the use of the SIS-A and PA Supplement to individuals 14 & up, enrolled in Target Support Management Services (TSM) ([ODP Bulletin - 00-22-01](#))

3

The Center for Medicaid and Medicare Services, also known as CMS, requires that any state that provides waiver and Targeted Support Management services must have a standardized needs assessment in place to assure that necessary supports and services are consistently and appropriately delivered. On July 28, 2008, ODP adopted the Supports Intensity Scale and the PA Supplement as a standardized needs assessment for individuals receiving waiver services. On March 1st, 2022, ODP extended the use of the SIS-A and PA Supplement for individuals 14 and older who are enrolled in Targeted Support Management services, also known as TSM.

What is the SIS-A?

The Supports Intensity Scale - Adult Version,

® 2nd Edition (SIS-A, 2nd Ed.) is a standardized assessment that measures the pattern and intensity of supports adults 16 years and older with intellectual and developmental disabilities require to be successful in adult community life.

Its purpose is to assess support needs fairly using a uniform procedure.

-©2023 AAIDD

8/19/2024

4

The Supports Intensity Scale Adult version is a standardized assessment that measures the pattern and intensity of supports. Adults 16 years and older with intellectual and developmental disabilities require to be successful in adult community life. Its purpose is to assess support needs fairly using a uniform procedure. With permission from AAIDD, ODP has elected to utilize the SIS-A for individuals ages 14 and older.

Author and Publisher of SIS-A

Mission

AAIDD promotes progressive policies, sound research, effective practices, and universal human rights for people with intellectual and developmental disabilities.

8/19/2024

5

The American Association on Intellectual and Developmental Disabilities, also known as AAIDD, is the author and publisher of the SIS-A. AAIDD is the oldest, largest, and most influential membership organization concerned with intellectual and developmental disabilities. Their mission is to promote progressive policies, sound research, effective practices, and universal human rights for people with intellectual and developmental disabilities.

How has the SIS evolved

pennsylvania
DEPARTMENT OF HUMAN SERVICES

SIS Launched 2004

Renamed SIS-A 2015

SIS-A 2nd edition 2023

8/19/2024

6

The slide features a title 'How has the SIS evolved' in white on a dark blue bar. Below it is the Pennsylvania Department of Human Services logo. The main content is a timeline of three circular nodes connected by blue arrows. The first node says 'SIS Launched 2004'. The second node says 'Renamed SIS-A 2015'. The third node says 'SIS-A 2nd edition 2023'. At the bottom left is the date '8/19/2024' and at the bottom right is the number '6'.

First launched in 2004, the assessment tool was developed over a five-year period and normed with a culturally diverse group of 1300 people with IDD ages 16 to 72. Norming is the process of collecting a representative sample of a target population support needs, determining the range and average support needs of the sample, and creating a way to compare a single person's support needs against those of the sample. In 2015, they rebranded the assessment naming it the Supports Intensity Scale - Adult to differentiate the assessment from the newly created children's version, which was launched in 2016. In January of 2023, AAIDD released a second edition of the SIS-A, which included updated norms, expanding the sample from 1300 to over 150,000, as well as several enhancements.

7

The SIS-A is comprised of two sections. The first section is Exceptional Medical and Behavioral Supports, and the second section is the Support Needs for Life Long Activities. Next, we'll go over these two sections.

Section 1

Exceptional Medical / Behavioral Support Needs

Exceptional Medical

1. Focuses on current supports – not historical
2. Does not factor in anticipatory (“what if”) supports
3. Rated on the support provided, not the severity of the condition

Exceptional Behavioral

1. Focuses on current supports – not historical
2. Does not factor in anticipatory (“what if”) supports
3. Rated on preventative measures, not the severity of the behavior
4. Considers needs based on risks associated with maladaptive behaviors

Section 1 looks at specific exceptional medical and behavioral support needs. Exceptional supports are those supports that are above and beyond what would be typically needed. These are extraordinary supports. Section 1 is the only section of the assessment that focuses on current supports. It does not rate for historic or anticipatory concerns for which no current extraordinary supports are required. The term current generally takes into consideration the support the person has needed over the past six months and what could be reasonably expected over the next six months. The exceptional behavioral section does consider needs based on risks associated with maladaptive behaviors.

Supports Intensity Scale - Adult: An SC Overview

Supports Intensity Scale-Adult Version, 2nd Ed. [ACES 16-64] **SIS-A**

Respondent Guide

Section 1. Exceptional Medical and Behavioral Support Needs

RATING KEY

0 = No Support Needed
(condition or behavior is not an issue, or no exceptional support is needed to manage the medical condition or behavior)

1 = Some Support Needed
(continuously aware, monitoring, episodic active support, may not need in all environments)

2 = Extensive Support Needed
(intense, active support occurs frequently, may need active supports in all environments, active support takes significant time)

Section 1A: Exceptional Medical Support Needs (24 Items)

- Respiratory Care (4 Items)
- Feeding Assistance (4 Items)
- Skin Care (2 Items)
- Other Exceptional Medical Care (14 Items)

Section 1B: Exceptional Behavioral Support Needs (14 Items)

- Externally Directed Behavior (4 Items)
- Self-Directed Behavior (4 Items)
- Sexual Behavior (2 Items)
- Other (4 Items)

9

Ratings in this section are based upon active support needs and any preventative measures that may be currently in place that are extraordinary. Section 1A is your Exceptional Medical Support Needs. There's 24 items: Respiratory Care, Feeding Assistance, Skin Care, and Other Exceptional Medical Care. Section 1B is your Exceptional Behavioral Support Needs, and there are 14 items in this section. They're broken down into Externally Directed Behavior, Self-Directed Behavior, Sexual Behavior, and four items under Other. To read these items, we use a key of zero - No Support Needed, one - Some Support Needed, this is continuously aware. Monitoring. Episodic active supports may not be needed in all environments and two - Extensive Support Needs. This is intense. Active support occurs frequently. May need active supports in all environments. Active support takes a significant amount of time.

Section 2

Support Needs for Life-Long Activities

Home
Living

Community
Living

Health and
safety

Life Long
Learning

Work

Social

Advocacy

Respondents will identify the following for every question:

1. Support Type
2. Frequency
3. Daily Support

8/19/2024

10

Section 2 is the Support Needs for Life-Long Activities. This section documents support needs across seven life domains Home Living, Community Living, Health and Safety, Life Long Learning, Work, Social, and Advocacy. The assessor will ask the respondents to rate for success, meaning what supports are needed to successfully engage the individual in participation. Respondents will rate each item by identifying the support type, the frequency, and the daily support time needed for the individual to participate to their fullest extent.

Supports Intensity Scale - Adult: An SC Overview

Support Needs for Lifelong Activities

pennsylvania
DEPARTMENT OF HUMAN SERVICES

Supports Intensity Scale-Adult Version, 2nd Ed. [ages 18-64] **SIS-A**

1. This scale should be completed without regard to the services or supports currently provided or available.
2. Scores should reflect the supports that would be necessary for this person to be successful.
3. If an individual uses assistive technology, the person should be rated with said technology in place.
4. Complete ALL items, even if the person is not currently performing a listed activity.

TYPE OF SUPPORT	FREQUENCY	DAILY SUPPORT TIME
WHAT EXTRAORDINARY SUPPORT WOULD BE NEEDED FOR SUCCESS IN THE ACTIVITY?	HOW OFTEN WOULD EXTRAORDINARY SUPPORT BE NEEDED FOR SUCCESS IN THE ACTIVITY?	HOW MUCH TOTAL EXTRAORDINARY SUPPORT TIME SHOULD BE NEEDED FOR SUCCESS IN THE ACTIVITY?
0 = none 1 = monitoring (reminders) 2 = verbal/gestural prompting (coaching) 3 = partial physical assistance (doing some) 4 = full physical assistance (doing required)	0 = none or less than monthly 1 = monthly 2 = weekly (up to 6 days a week) 3 = daily (at least 7 days a week) 4 = hourly or more frequently	0 = none 1 = less than 30 minutes 2 = 30 minutes to less than 2 hours 3 = 2 hours to less than 4 hours 4 = 4 hours or more

Section 2. Support Needs for Life Activities

Section 2A: Home Living Activities (8 Items)
Section 2B: Community Living Activities (8 Items)
Section 2C: Health and Safety Activities (8 Items)
Section 2D: Lifelong Learning Activities (9 Items)
Section 2E: Work Activities (8 Items)
Section 2F: Social Activities (8 Items)
Section 2G: Advocacy Activities (8 Items)

11

This slide provides an example of what the reading key looks like for Section 2 lifelong activities. This skill should be completed without regard to services or supports currently provided or available. Scores should reflect the support that would be necessary for the person to be successful. If an individual uses assistive technology, the person should be rated with the technology in place. You must complete all items even if the person is not currently performing a listed activity. Each activity in this section is given a rating for the type, frequency, and daily support time needed. When identifying the type of support, we are considering what extraordinary support would be needed for success in this activity. A zero is no support. A one would be monitoring and reminders. A two is verbal gestural, prompting, coaching. A three would be partial physical assistance. And a four would be full physical support, doing what is required for the person. Frequency is how often would extraordinary support be needed for success in the activity? A zero is none or less than monthly. A one is monthly. Two equals weekly up to six days a week. A three would be daily, or at least seven days a week. And a four is hourly or more frequently. Daily support time is how much total extraordinary support time would be needed for success in the activity. A zero is none. One - less than 30 minutes. Two - 30 minutes to less than 2 hours. Three - 2 hours to less than 4 hours. And four is 4 hours or more.

1. How much support does the person need for mobility? (Circle one)

None
 Assistive Technology (Wheelchair, walker, braces or cane)
 Occasional personal support
 Extensive personal support or all the time

1.A. Does the person have Assistive Technology in place for mobility? (Circle one)

Yes (Please specify)
 No
 Need for Assistive Technology is documented, but is not yet in place or is not used (Please specify)
 No Assistive Technology needed

Comment: _____

2. How much support does the person need to transfer? (e.g., from bed to chair, etc.) (Circle one)

None
 Assistive Technology/Modifications
 Occasional personal support (On occasion when the person needs to transfer)
 Extensive personal support or all the time the person needs to transfer

2.A. Does the person have Assistive Technology in place for transferring? (Circle one)

Yes (Please specify)
 No
 Need for Assistive Technology is documented, but is not yet in place or is not used (Please specify)
 No Assistive Technology needed

Comment: _____

3. How much support does the person need with regard to vision? (Circle one)

None
 Assistive Technology/Modifications
 Corrective lenses or surgery
 Requires personal support or modifications even with corrective lenses
 Requires personal support to participate in activities requiring vision

Comment: _____

4. How much support does the person need with regard to hearing? (Circle one)

None
 Hearing aid, cochlear implant or other similar device
 Requires additional accommodations in addition to hearing aid or similar device
 Requires personal support to participate in activities requiring hearing

Comment: _____

5. How much support does the person need to communicate effectively with a variety of people in a variety of settings? (Circle one)

None
 Requires extra time to communicate
 Requires some assistance from familiar persons or technology to communicate
 Requires familiar persons or technology to communicate at all times

8/19/2024

12

ODP requires two additional supplements be included with the SIS-A assessment. First is the PA Plus. It is completed at the beginning of the assessment and consists of ten questions that give a general overview of support needs in areas such as mobility and transferring vision and hearing, communication, safety awareness, physical and mental health status, and telephone support. The PA plus also looks at assistive technology and adaptive equipment that may be in place to increase an individual's overall independence and quality of life.

Supports Intensity Scale - Adult: An SC Overview

PA Supplement

pennsylvania
DEPARTMENT OF HUMAN SERVICES

PA Supplemental Needs/Risk Assessment Individual's Name:

Indicate a "yes" or "no" for each of the items below. Complete ALL items. Items "d" and "e" require some narratives, days and hours of support needed.

Additional Supports/Risk Assessment

Health	Triggered by questions 1A-19 with a "1" or a "2"	YES NO
1 The individual requires exceptionally high levels of staff support to address severe medical risks related to infection, including but not limited to: skin care, oral care, continence, feeding, personal feeding; skin care (turning or positioning; skin care dressing of open wounds; protection from infection); continence; feeding; oral care; and/or staff support to manage the individual's medical needs related lifting and/or transferring; therapy services, hypertension, allergies, diabetes, and/or other critical medical needs.		
a. The individual requires frequent hands-on staff involvement to address critical health and medical needs?		
b. The individual's severe medical risk currently requires direct 24-hour professional on-site (licensed nurse) involvement?		
c. Individual is off work medical care plans, in place, that are documented within the ISP process?		
d. The individual requires extensive support to manage the individual's medical risk. How many days per week and approximately how many hours per day is the extensive support required? " " hours per day		
e. Description of the imminent (i.e. within the next 30 to 60 days) consequences if support is provided to address the individual's severe medical risk provided. If yes, add description in notes section or in SIS online.		
2 Severe Community Safety Risk	Triggered by questions 1B-2, 3, 9 or with a "1" or a "2"	
a. The individual poses a serious risk to others due to self-inflicted harm, property destruction, due to fire setting and/or, and/or sexual aggression and has been considered for involuntary hospitalization?		
b. The individual has been found guilty of a crime, related to these risks, through the criminal justice system?		
c. The individual has been found guilty of a crime, related to these risks, through the criminal justice system, direct supervision at home, and/or direct supervision in the community?		
d. The individual has documented restrictions in place, related to a legal requirement or protection order?		
e. In Section 1B, Behavioral Supports Needed, it was determined that extensive support is needed to manage the individual's severe community safety risk. How many days per week and approximately how many hours per day is the extensive support required? " " hours per day		
f. The individual has been found guilty of a crime, related to these risks, through the criminal justice system, direct supervision at home, and/or direct supervision in the community?		
3 The individual is currently a severe community safety risk to others related to actual or attempted assault and/or rape, and/or sexual aggression, and has been considered for involuntary hospitalization, and/or has been convicted of a crime related to these risks?		
a. The individual poses a serious risk to others due to self-inflicted harm, property destruction, due to fire setting and/or, and/or sexual aggression and has been considered for involuntary hospitalization, and/or has been convicted of a crime related to these risks, but displays the same severe community safety risk as a person found guilty through the criminal justice system?		
b. The individual has been found guilty of a crime, related to these risks, through the criminal justice system, direct supervision at home, and/or direct supervision in the community?		
c. The individual has been found guilty of a crime, related to these risks, through the criminal justice system, direct supervision at home, and/or direct supervision in the community? " " hours per day		
d. In Section 1B, Behavioral Supports Needed, it was determined that extensive support is needed to manage the individual's community safety risk. How many days per week and approximately how many hours per day is the extensive support required? " " hours per day		
e. Description of the imminent (i.e. within the next 30 to 60 days) consequences if support is provided to address the individual's severe community safety risk provided. If yes, add description in notes section or in SIS online.		
4 Risk of Injury to Self	# is triggered by questions 1B-5-6 or 7 with a "1" or a "2" # is to be asked of everyone	
a. The individual displays self-directed destruction of self, property, and/or suicide attempts which seriously threatens their own health and/or safety?		
b. The individual displays a risk of injury to self, property, and/or suicide attempts which seriously threatens their own health and/or safety? " " hours per day		
c. The individual has prevention and intervention plans, in place, that are documented within the ISP process?		
d. In Section 1B, Behavioral Supports Needed, it was determined that extensive support is needed to manage the individual's risk of injury to self, property, and/or suicide attempts. How many days per week and approximately how many hours per day is the extensive support required? " " hours per day		
e. The individual displays a risk of injury to self, property, and/or suicide attempts which seriously threatens their own health and/or safety? " " hours per day		
f. Description of the imminent (i.e. within the next 30 to 60 days) consequences if support is provided to address the individual's severe risk of injury to self provided. If yes, add description in notes section or in SIS online.		
5 Individual displays a risk of falling, as demonstrated by an unaided gait, active seizures, documented history of falls, and/or a history of falls. Describe specifics and frequency of falls in past 12 months		

Notes (continue on back as needed):

13

The Supplemental Risk Assessment, also known as the Oregon Supplement, was developed by the Human Services Research Institute. Also known as HSRI. It was designed to further assess individuals with exceptionally high medical and behavioral needs that may put them and others at severe or imminent risk. Questions one through four are considered for individuals with severe medical or community safety risks. And question five is a fall indicator and is asked of everybody. The PA Plus and the Supplemental Risk Assessment combined is known as the PA Supplement.

SIS-A Vendor & Assessor	
 pennsylvania DEPARTMENT OF HUMAN SERVICES	
<u>VENDOR</u>	<u>ASSESSOR</u>
<ul style="list-style-type: none">➤ Conflict Free➤ Coordinate the scheduling of assessments➤ Provide a scheduling portal	<ul style="list-style-type: none">➤ Facilitate the Assessment➤ Describe each item in detail➤ Explain how to use the rating keys➤ Obtain Group consensus➤ Finalize the Assessment
14	

To ensure that the assessment is independent and conflict free. ODP contracts with an independent vendor to administer the SIS-A and PA supplement. It is the vendor's responsibility to coordinate the scheduling of the assessments through their identified scheduling portal. As an SC, you will work with your supervisor to gain access to the vendor scheduling portal and receive instructions on how to use it. Assessors work for the independent vendor to administer assessments. The assessor's role is to facilitate the assessment by reading each question, providing feedback as needed, explaining the rating keys, and collaborating with respondents to reach group consensus when selecting ratings. In cases where consensus cannot be reached, the assessor is ultimately responsible for determining the final rating based on the information provided, and AAIDD quality standards.

When reviewing SIS reports, you may notice two different versions. Assessments completed before January 2024 are formatted using the SIS Family Friendly Report, while assessments completed after January 2024 will be formatted using the SIS Summary Report. Both contain the same information, but the SIS Summary Report was purposefully designed to be more person centered and easier to understand. For the purposes of this presentation, we will be focusing on the SIS Summary Report.

The SIS-A Summary Report offers an overview of an individual's support needs, followed by the SIS-A interview results. At the top of the report you will notice General identifying information, the SIS ID, and interview date. We then have the Supports Snapshot – which provides an overall percentile for every subscale in section 2. Key supports that are items identified as important to the individual and important for the individual. These items are noted throughout the assessment using a heart or an exclamation point. As an SC you can use these items to help the team focus in on things to consider for planning and to ensure you are creating a person centered ISP. Lastly, any identified Exceptional medical or behavioral supports are listed. Remember this page is just a snapshot. The following pages in the report will provide much more detail.

Understanding the SIS Report

Exceptional Medical & Behavioral Support Needs		
Medical Condition	Support Need	Notes
Inhalation or oxygen therapy	No Support (0)	
Postural drainage	No Support (0)	
Chest PT	No Support (0)	
Suctioning	No Support (0)	
Oral Stimulation or jaw positioning	No Support (0)	
Dysphagia (swallowing difficulties)	No Support (0)	
Tube feeding (e.g., nasogastric)	No Support (0)	
Parenteral feeding (e.g., IV)	No Support (0)	
Turning or positioning	No Support (0)	
Dressing of open wound(s)	No Support (0)	
Protection from infectious diseases or due to immune system impairment	No Support (0)	
Seizure Disorder management	Some Support (1)	
Dialysis management	No Support (0)	
Ostomy and Catheter care	No Support (0)	
Gastrointestinal health management	No Support (0)	

Support Needs for Life Activities

Home Living Activities

Type of Support	Frequency of Support	Daily Support Time
1. Bathing and taking care of personal hygiene and grooming needs	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	
2. Dressing	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	
3. Using the toilet	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	
4. Preparing food	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	
5. Eating Food	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	
6. Taking care of clothes, including laundering	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	
7. Housekeeping and cleaning	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	
8. Operating home appliances/electronics	Verbal/Gestural Prompting (2)	Weekly (2)
		30 minutes to less than 2 hours (2)
	Notes:	

17

The Exceptional Medical and Behavioral Support Needs lists the items that scored a one, some support needed or two exceptional support needed, as well as any relevant notes. The Support Needs for Life Activities includes every item rating and notes for the seven life domains.

Supports Intensity Scale - Adult: An SC Overview

Understanding the Summary Report

pennsylvania
DEPARTMENT OF HUMAN SERVICES

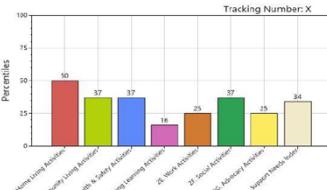

Support Needs Profile - Graph

The graph provides a visual presentation of the seven life activity areas from Section 2. The graph reflects the pattern and intensity of the individual's level of support. The intent of the graph is to provide an easy means to prioritize the life activity areas in consideration of setting goals and developing the Individual Support Plan.

Activities Subscale	Total Raw Score	Standard Score	Percentile	Confidence Interval (95%)
2A: Home Living Activities	48	10	50	9-11
2B: Community Living Activities	48	9	37	8-10
2C: Health & Safety Activities	48	9	37	8-10
2D: Lifelong Learning Activities	54	7	16	5-8
2E: Work Activities	48	8	25	7-9
2F: Social Activities	48	9	37	8-10
2G: Advocacy Activities	48	8	25	7-9
Total:	342	60		

SIS-A Support Needs Index: 54
Percentile: 34

Individual's Support Needs

Activity Area	Tracking Number	Percentile
2A: Home Living Activities	X	50

The support needs profile provides the final scores and a graph to view an individual's support needs for every Section 2 subscale. The final part of the report is the interview details page. This page provides demographic information for the individual who received the assessment, support providers, respondent information, the assessor's name, the assessment date, and any additional pertinent information.

SIS-A

Who and When?

8/19/2024

19

Now that you have some basic knowledge on what the SIS-A is and how to read the summary report, we will focus our attention on who gets an assessment and how often are they completed.

Who gets a SIS-A?

Individuals ages 14 and up who are enrolled in:

Target Support
Management Services
(TSM)

Person Family Directed
Services Waiver (P/FDS)

Community Living
Waiver

Consolidated Waiver

8/19/2024

20

Any individual ages 14 and older who is enrolled in Targeted Support Management Services (TSM), Person Family Directed Services, Waiver (P/FDS), Community Living Waiver or the Consolidated Waiver must receive a SIS assessment.

How often are assessments completed and should the SC attend?

First Assessment – Individuals ages 14 and up, upon enrollment.
* SC attendance is mandatory

Regular Assessment – The SIS-A is routinely completed once every five years from date of the last SIS-A Assessment.
* SC Attendance is not mandatory but strongly encouraged by ODP.

Expedited Request - major change in an individual's life that has a lasting impact on their support needs that is anticipated to last more than six months and causes his or her SIS-A and PA Supplement results to be no longer current.
* SC attendance is mandatory

21

ODP has identified three categories of assessments. First Assessments are completed upon waiver enrollment or within 60 days of a Targeted Support Management provider's acceptance. SC participation is required for all first assessments. The SC's presence not only provides comfort to the individual and their family, but it also allows the SC to learn more about the individual and gather information useful in developing the Individual Support Plan. Regular Assessments are completed every five years from the date of the previous assessment. SCs are strongly encouraged to attend Regular Assessments, but it is not required if two valid respondents are already present. We will discuss what a valid respondent is on the next slide. Finally, we have Expedited Requests. If an individual experiences a significant life change that has a long-term impact on their support needs and is expected to last more than six months, rendering their SIS-A no longer current, they will be eligible for an expedited assessment. SC Attendance is mandatory at all Expedited Requests.

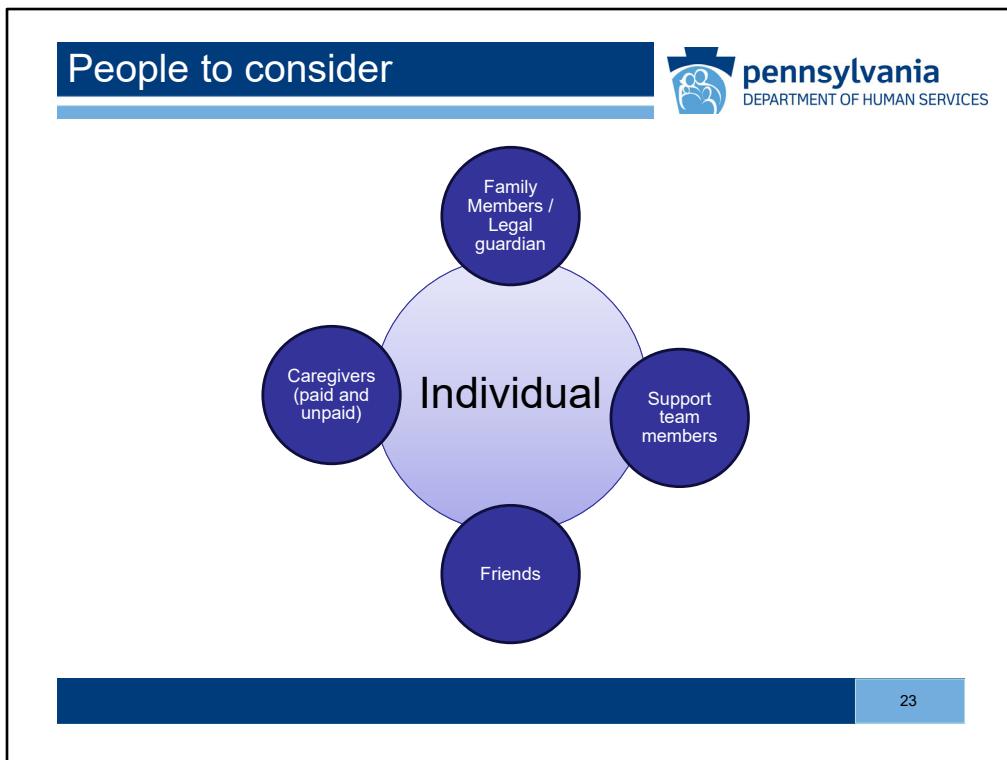

Who should participate?

 pennsylvania
DEPARTMENT OF HUMAN SERVICES

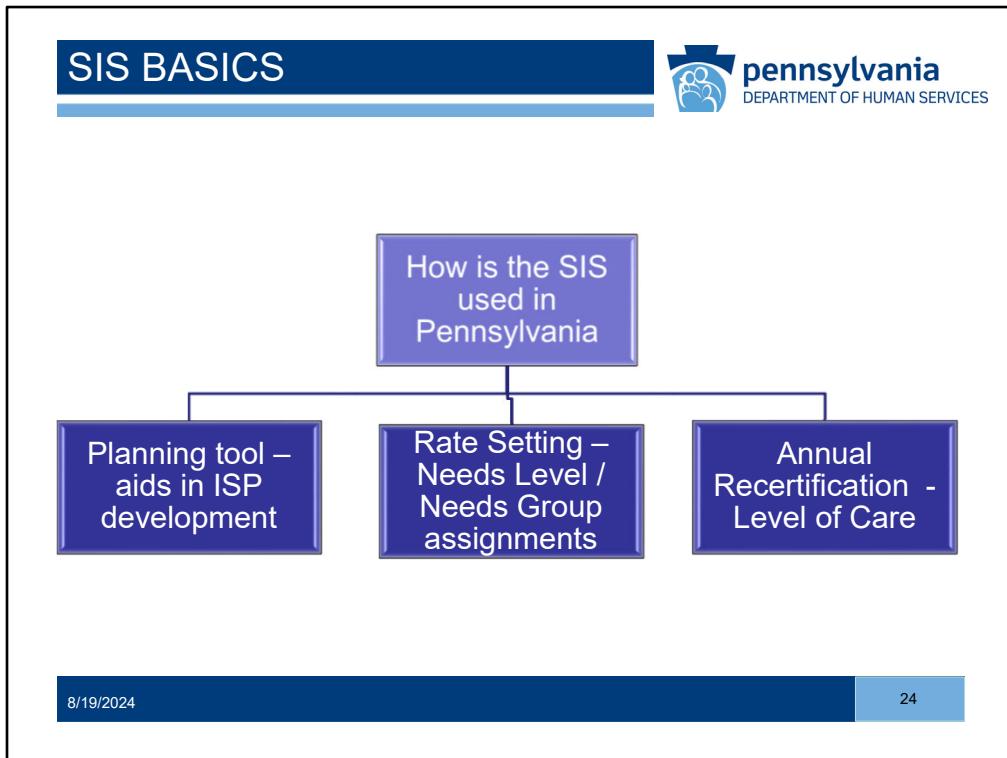

Respondent	Observer
AAIDD Respondent Criteria	"Observer"
<ul style="list-style-type: none">At least two participants who:<ul style="list-style-type: none">Have known the individual for at least 3 monthsMust be able to address support needs across a variety of everyday life settingsMUST be present for the duration of the Assessment	<ul style="list-style-type: none">Those who do not meet the qualification of a respondent are considered "observers" and are welcome to participate in the assessment.
<p>*If the individual is receiving residential services, a representative must attend the entire meeting.</p>	

22

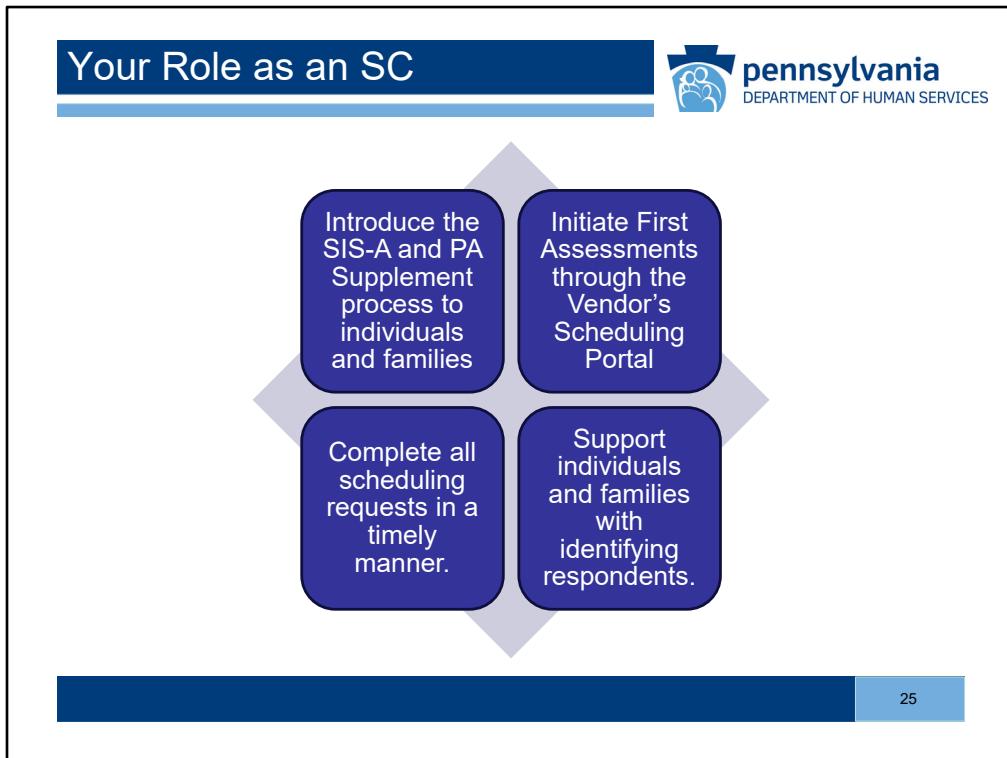

Although anyone involved in the person's life is welcome to participate, AAIDD has specific criteria that needs to be met in order for the assessment to take place. Per AAIDD, there must be at least two participants who meet respondent criteria. By definition, this means the participant must have known the individual for at least three months and be able to speak knowledgeably about the individual's support needs across a variety of everyday life settings. And the two people who meet respondent criteria are present throughout the duration of the meeting. People who attend but do not meet respondent criteria are considered observers and are welcome to participate in the assessment. If the individual is receiving residential services, a representative from that provider must attend the entire meeting.

As the SC, you will take a lead in identifying respondents for SIS-A assessments. When considering who to include, you should begin with the individual. Individual participation in the assessment is valuable, but it is not a requirement. It is up to the individual whether or not they wish to participate in the assessment and should be given choice on who to invite to the assessment. In the event that the individual declines attending, the assessor must still meet with the individual prior to the assessment or within five business days after it's been completed. Other people you may want to consider are family members, legal guardians, support team members, friends, and caregivers. Remember, if residential services are in place, a representative of that agency must be present during the assessment.

The SIS-A is used in Pennsylvania in a variety of ways. First and foremost, it is a planning tool to aid in ISP development and identifying person centered supports. Secondly, we use it for rate setting. A provider's rate for Residential Habilitation services is based on an acuity of the individual served and the SIS-A is used to determine an individual's acuity. ODP generates Needs Level/ Needs Group assignments based on the SIS scores and supplemental questions that are asked during the SIS-A assessment. And finally, it is used to inform the Level of Care re-evaluation tool completed annually by Administrative Entities.

As the SC, it is your responsibility to introduce the SIS-A and PA Supplement process to individuals and families and familiarize them with the process. You'll initiate first assessments through the vendor's scheduling portal. You will complete all scheduling requests from the vendor in a timely manner and you'll support individuals and families with identifying respondents.

Your Role as an SC – cont.

Identify any specialized supports necessary for a successful assessment.

Participate in the standardized needs assessment process to inform development of the Service Plan.

Capture all SC related activities to the assessment in service notes.

26

When filling out scheduling requests in the vendor's portal, you will identify any specialized supports necessary for a successful assessment. That could be language supports, ASL supports, or any situational sensitivities. You will participate in the standardized needs assessment process to inform development of the service plan, and you will capture all SC related activities to the assessment in your service notes.

Your Role as an SC – cont.

A diamond-shaped diagram composed of four blue rounded rectangles arranged in a diamond pattern. The top-left rectangle contains the text: "Once finalized, ensure the information from the assessment is utilized in the ISP and reviewed annually." The top-right rectangle contains the text: "Ensure that the individual or family receives a copy of the finalized assessment." The bottom-left rectangle contains the text: "Provide copies of the finalized assessment to the ISP team for reference during the ISP meeting." The bottom-right rectangle contains the text: "Initiate Expedited Requests through ODP's Significant Life Change process if the individual experiences a change in need lasting 6 months or more." Arrows point from the center of each rectangle to the center of the diamond's sides.

27

Once the assessment is finalized, it's the SC's responsibility to ensure the information from the assessment is utilized in the ISP and reviewed annually at the ISP meeting. Ensure that the individual and family receives a copy of the finalized assessment. Provide copies of the finalized assessment to the ISP team for reference during the ISP meeting and to initiate Expedited Requests through ODP's Significant Life Change process, if the individual experiences a change in need lasting six or more months.

Discrepancies

The SIS-A is not appealable, but a Discrepancy Review Request Form can be submitted.

<https://forms.office.com/g/6zB1Ep3X0N>

8/19/2024 28

Results from the SIS-A do not equate to service denial, suspension, termination, or reduction. Therefore, it is not appealable through ODP's Bureau of Hearing and Appeals. However, in the event that there is a major discrepancy, ODP has created a SIS-A Discrepancy Review process. Requests can be submitted by anyone on the individual support team and can be found on MyODP's website or by utilizing the link on this slide.

Two important announcements found on the SIS-A landing page that I'd like to call your attention to are the ODP Announcement 23-014, SC Participation and Scheduling Guidance and ODP Announcement 24-028, SIS-A Discrepancy Form. Announcement 23-014 outlines SC participation in the SIS-A as well as guidance on in-person and virtual assessments. ODP's Announcement 24-028 explains our SIS-A Discrepancy Review form. Please take a moment after this presentation to review these two announcements.

Supports Intensity Scale - Adult: An SC Overview

From the SIS-A landing page. You have access to AAIDD's Learning Resource Center. The Learning Resource Center is a collection of SIS-A materials and informational videos developed by AAIDD. This information is accessible to all stakeholders in Pennsylvania and can be a valuable resource to direct individuals and family members to. As we Near the end of this training, I'd like to point out a few things to remember.

Things to Remember

pennsylvania
DEPARTMENT OF HUMAN SERVICES

SIS-A is a CMS requirement. Participation should be prioritized, with all efforts made to minimize cancellations. ODP closely monitors the scheduling and completion of assessments and has requested our vendor to report any issues that cause delays.

Video MUST be on for all assessments scheduled using a virtual platform. Calling into an assessment by phone is only acceptable when arrangements are made due to an out-of-town family member.

At least two (2) valid respondents must be in attendance and are required to participate for the duration of the assessment (in-person and virtual assessments).

The SIS-A is not appealable. It is the support team's responsibility to ensure that the respondents are people who know the individual best and are aware of their current support needs.

SC participation and all activities related to the SIS assessment is billable for both waiver and TSM individuals.

8/19/2024
